Professional Experiences

Discovery Benefits by WEX Inc. | Fargo, ND

01/2019 - Current

Application Developer Intern

- Building and debugging projects in ASP.NET framework in Visual Studio using C#, SQL, JS
- Designing and debugging complex SQL queries in Microsoft SQL server and saved a lot of time by completing projects way ahead of release days
- Actively report on activities on the Jira tickets to record work logs in the agile tracking system
- Using bitbucket GIT version control to plan project, code, test and deploy
- Actively communicate with UAT to ensure the fulfillment of the business needs
- Daily work includes developing, testing, documenting, building, debugging, and perform analysis on applications

The Lacek Group | Minneapolis, MN

06/2018 - 8/2018

Application Developer Intern

- Built a complete application for a company using Laravel framework (PHP, MySQL, HTML, JS)
- Improved UI of the existing web applications using JS, HTML and CSS
- Designed a functional wireframe for our team project using InDesign and InVision
- Implemented coding standards and other development best practices and methodologies
- Completed key operational processes and systems such as design, development, testing, debugging during the course of my internship

Minnesota State University Moorhead | Moorhead, MN

08/2015 – 01/2019

Helpdesk Support Technician

I acknowledged tickets from a ticketing queue as well as provided support for laptops, desktops, network whenever the users needed. On a multiple occasion, I created knowledge base articles as needed to improve service quality. Also, utilized multiple applications during the course of my work day. Worked in Active Directory, an application database, Bomgar (remote desktop support software), SharePoint, Cisco VPN, and Outlook.
